

Abigail I ♥ my school because...

I was shy and sad when I first came in school. I started to make friends. I'm in 3rd grade now. This year has been great so far. It's been great cause we have literacy center, Diorama, experientials, and a bunch more stuffs. I love this school cause it care's about you. The principal and the assistant principal are great. And the front desk they are great to everyone. And in 3rd grade the teacher Ms. Goutchof teaches us alot of stuff. She's the best. And my class mates too. There great. Everyone is nice and Mr. Griffin and Ms. Heidinger are great too. Everyone is great here. All the employees and every one else here is great. And I love everyone else too. And I like that there's 2 buildings and computers. And there's big classrooms. And alot of kids here so they all get money to have the greatest school ever.
